NOTICE

TENTATIVE WASTE DISCHARGE REQUIREMENTS FOR

SYNAGRO WEST, LLC AND GARY SILVA
SILVA RANCH WET WEATHER BIOSOLIDS STORAGE FACILITY
CLASS II WASTE PILE AND CLASS II SURFACE IMPOUNDMENT
CONSTRUCTION, OPERATION, AND CLOSURE
SACRAMENTO COUNTY

TO ALL CONCERNED PERSONS AND AGENCIES:

The Regional Water Quality Control Board, Central Valley Region will consider adopting new waste discharge requirements (WDRs) for the Silva Ranch Wet Weather Biosolids Storage Facility at its meeting on **13/14 September 2007**. The proposed WDRs provide requirements for construction, operation, monitoring, and closure of a lined waste management unit to be used for temporary storage of biosolids during wet weather when they cannot be applied to land.

Electronic copies of the proposed tentative WDRs and the Notice of Public Hearing are available for viewing and downloading on our website at www.waterboards.ca.gov/centralvalley/tentative.

The Notice of Public Hearing contains important information about the public hearing process. Electronic copies of the September 2003 Standard Provisions and Reporting Requirements that would be adopted as part of the WDRs may be obtained at www.waterboards.ca.gov/centralvalley/adopted_orders/#Standard.

If you do not have access to the Internet or otherwise require paper copies of these documents to be sent to you, please contact Bill Brattain at (916) 464-4622 or by email at bbrattain@waterboards.ca.gov. Any comments or evidence you may have concerning the tentative WDRs must be submitted to this office by **30 July 2007** to the attention of Bill Brattain at the address listed above. Comments submitted after this date will not be accepted.

If you have any questions, please call Bill Brattain at (916) 464-4622.
